Minister

Mary Mogford  
Deputy Minister

ATLAS OF  
MUSKELLUNGE LAKES IN ONTARIO

EXPLANATORY NOTES

This atlas represents our understanding of the distribution of muskellunge lakes in Ontario as of September, 1987. This record was compiled from the Lake Inventory Data Base, with additions and amendments made by district staff.

The atlas is organized by district in ascending order by district code. The data fields listed are:

1. District: See page ii for district codes.
2. Lake Name: gazateer name (1974 Gazateer or its 1977 Supplement), followed by local name, if any, in parentheses. Lakes not listed in the gazateer are identified by their local name, followed by (NL).

If no lake name is available, the lake is identified simply as NL.

For lake names which have the word "Lake" appearing after the name (e.g. Blue Lake), only the name is given (Blue). Lake names beginning with the word "Lake", are identified by their full names (e.g. Lake Ontario, Lake of the Woods).

For populations of muskellunge found in the Great Lakes, each Great Lake is listed only once, as follows:

| Lake                          | District    | District Code |
|-------------------------------|-------------|---------------|
| Superior                      | Terrace Bay | 24            |
| Huron (incl. Georgian Bay)    | Parry Sound | 55            |
| Erie                          | Chatham     | 82            |
| St. Clair                     | Chatham     | 82            |
| Ontario (incl. Bay of Quinte) | Napanee     | 64            |

Rivers are not listed in this atlas.

3. Township
4. Latitude
5. Longitude
6. Origin: origin of the population of muskellunge (native (N), introduced (I), or unknown (U)).
7. Survey status: In order to qualify as surveyed, a lake must have had a complete survey following the standards for Aquatic Habitat Inventory Surveys.
8. Watershed code
9. Lake area: lake area in hectares is given as one of six categories:

| <u>Area Class</u> | <u>Code</u> |
|-------------------|-------------|
| <10               | 1           |
| 10-100            | 2           |
| 100-1000          | 3           |
| 1000-10,000       | 4           |
| >10,000           | 5           |
| unknown           | 9           |
